

GTS Case Study

4G/5G Small Cell Nodes + Fiber Backhaul

1M + Miles constructed (aerial + underground)

600+ 4G & 5G Small Cell Sites Constructed

For a nationwide communications infrastructure provider, GTS has handled 4G, 5G and fiber network construction projects involving the top 3 carriers in the US over the past decade.

We're looking forward to more small cell projects to build out in the future!
